Business Information

NOT OPEN ON SUNDAYS. We do not have help to dig stock on Saturdays but if you want to pick up stock on Saturday let us know long enough in advance so we can have it ready for you.

THESE PRICES are in effect Fall 1953 and Spring 1954.

PRICES named in this Trade List apply only to orders placed by nurserymen, florists and dealers. Maryland customers are subject to 2% sales tax or send your License Number. All delivery costs are to be paid by purchaser.

PACKING. All goods are packed in boxes and bales for which we charge sufficient to cover cost of material used. We will add this cost to your invoice. **This cost applies whether you remit with order or buy on time terms.**

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. **We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.**

TERMS. We offer the usual terms: net 30 days from date of shipment to those of known responsibility **but must have satisfactory business references from others or remittance must accompany order.** Those desiring stock shipped C.O.D. will please remit **one-fourth** the amount of their purchase when ordering. Other terms by special arrangement.

NON-WARRANTY. We give no warranty, expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting, life of stock or any other matter on any stock we sell. We send out good stock, carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

TELL US HOW TO SHIP, whether by express, motor truck, or railroad freight. If by motor truck or railroad freight, tell us the route or over which line you want delivery made. If you do not give this information we will use our own judgment as to route and methods to use. **It is mutually agreed that whether you name the route or leave it to our own selection, we will not in any way be responsible for time or condition of delivery and our responsibility ceases upon our delivery to the transportation company.**

HARDINESS OF PLANTS. When hardiness of plants is mentioned herein it applies to this section.

TIME OF SHIPMENT. We ship most every week in the year with the possible exception of during the winter when bad weather makes it impossible, although this is very seldom. Of course, there is a regular season for shipping the different plants, but if you want them out of season and are willing to take the risk of good delivery, we will pack with the utmost care and get them off to you at most any time you want them.

Plan to Visit Our Nursery

We will certainly be glad to have you come to see our stock for yourself. We believe you will find it compares favorably with that grown by other nurseries. Some of our customers have told us it is better than is furnished by some others. We are on the Eastern Shore of Maryland, 100 miles south of Wilmington, Delaware, 100 miles from Kiptopeke-Norfolk, Va., ferry, 90 miles from Annapolis, Md., via Chesapeake Bay Bridge, 150 miles from Baltimore, Md., via Elkton, Md., 225 miles from New York, N. Y. We hope you can come to see our stock. It is good driving on the famous Eastern Shore.

Ornamental Stock

Grafting Is Easy

You have often wanted to propagate some plants of a scarce or high priced variety but did not have the proper facilities to do it with. With a new outfit we are offering, you can do it yourself, as easily as making an old-fashioned graft. You take a branch of the shrub or tree you wish to graft, (leaving it on the parent plant) girdle the branch or twig, put damp peat moss or damp sphagnum moss around the girdled part and wrap it tightly with this new waterproof plastic (in sheets) and tie it, top and bottom, with rubber bands. Generally within six to eight weeks the twig is rooted ready to pot. It requires no watering or other attention until ready to pot. Complete outfit (enough plastic sheets and rubberbands to make 100 grafts) with complete instructions how to do the grafting, for $5.00 postpaid.

RED LEAF PEACH
Produces Full Crop of Edible Peaches!

Many ornamental trees have been offered with colored foliage, but never an ornamental PEACH TREE with RED FOLIAGE; bright red in spring, dulling to deep maroon towards fall. Deep rose blossoms against red foliage create a most pleasing contrast.

Trees produce a full crop of perfectly round Peaches, 1½-inch diameter—just the size for pickling. Fruit has all-over red coloring; flesh is white with a delicious sweet flavor.

3 to 4 ft., 10 for $7.50, 100 for $60.00

BOXWOOD

Boxwood is another of our specialties and by growing it in the quantities we do, we are enabled to furnish it at these very low prices. This Boxwood is first-class in every way. We have customers who send us repeat orders several times during a season. We know you will like our Boxwood if you will let us send you some of it. **Good Stock, Good Service and Low Prices.**

BUXUS KOREANA, A.A. TYPE. This is probably the hardiest of all the Boxwoods. This strain is entirely different from the above. Propagated from plants sent to us by the Arnold Arboretum many years ago. Foliage a good green both summer and winter; narrower leaves than Sempervirens; slow, spreading grower. We have been selling all our stock to growers who saw it in our nursery.				
* 2 in. pot plants.....		$3.00	$25.00	$235.00
BUXUS MICROPHYLLA var. COMPACTA. New rare, extremely dwarf and hardy Boxwood. Has stood all weather conditions in the Pocono Mountains where temperature drops below zero. Very dwarf and slow growing. Ideal for edging, rockeries, Knott gardens and all uses where plants are required to remain dwarf. Original plant after twenty-eight years, is now about 12 inches high and 21 inches wide. A rare gem. Stock very limited.

* 4 to 6 in. trans.....		$3.00	$25.00	
BUXUS SUFFRUTICOSA (Old English Dwarf Box). As a low edging in formal gardens there is no greater favorite than this variety of Box. This is the variety that is so much seen in Washington's gardens at Mt. Vernon and in other noted gardens in Delaware, Maryland, Virginia and other Middle Atlantic States. We have about 50,000 each rooted cuttings and transplants to offer this season. Our two-year rooted cuttings are very heavy rooted stock and we do not believe you can beat this quality and price anywhere. Order a few and see what they are.				
* Strong 2 yr. rooted cuttings			$7.50	$60.00

CAMELLIA JAPONICA

These Camellias are not hardy here. Can be used outside in the South, but inside here.

HIGH HAT. Beautiful, fresh pink sport of Daikagura. Having all good points of Daikagura, in addition to a most pleasing pink shading. One of the most desirable of the new Camellias.
12 to 15 in. pot grown plants.....$2.50 each

KUMASAKA. Very large, loose peony form to informal double glowing rose-pink. Profuse bloomer.
12 to 15 in. pot grown plants.....$1.50 each

PINK PERFECTION. Well known, medium size, formal double of clear pink.
12 to 15 in. pot grown plants.....$1.50 each

CAMELLIA SASANQUA

These handsome flowering evergreens have proven entirely hardy here and we believe they are as hardy as the Kurume Azaleas. They bloom from September until freezing weather. The demand for these plants is increasing about as much as for any plant we grow. Suggest you try them and treat them about as you would the Kurume Azaleas as to soil and culture. For further description ask for our Azalea, Camellia and Rhododendron booklet, no charge.

HOLLY (Ilex)

For many years we have been urging nurserymen to grow more holly. Fifteen years ago there was not very much demand for holly. If you will refer to our catalogs about that time and since, you will find we said, "The nurseryman who will grow a collection of Hollies to a specimen size will have something he can sell, whether times are good or whether they are bad. There is always a demand for them, and there will be as long as any other plants will sell."

Try to buy nice holly now, see how scarce it is. We find demand increasing each season.

OPACA CLARK. Lustrous green leaves deeply toothed. Berries very bright red.
4 in. pot plants.....$1.25 $11.50

OPACA, CROONENBURG. The Wonderful New Holly. In a mature plant the leaves are 2½ to 3¾ inches long and 2 to 2½ inches wide, having about 7 to 9 spines of a very dark green, not having the usual yellowish tint found in the most familiar American Hollies. It bears berries from cuttings almost continuously.
3 in. pot plants..... $7.00 $65.00 $625.00

OPACA DELIA BRADLEY. An American Holly of good merit. Has a very heavy fruiting habit, even when quite young. The fruit is a very bright red in great abundance, and can be depended upon to fruit yearly when once established. One of the best American Hollies.
3 in. pot plants..... $7.00 $65.00 $625.00
4 in. pot plants.....$1.25 11.50 100.00

OPACA, EAST PALATKA. A cross of Dahoon and Opaca. Its evergreen leaves are practically spineless. The deep red berries are borne in heavy clusters, ripen a month or so before Opaca and persist on the tree until spring.
3 in. pot plants..... $5.00 $45.00

OPACA FARAGE. Leaves nearly twice as long as broad and are a deep green and nicely toothed. The fruit is bright red.
4 in. pot plants.....$1.25 $11.50

OPACA FEMINA. These plants are all from good bearing and growing types and are ideal where you are not particular to know the names. We sell thousands of these every year. All are cutting grown and female plants.
3 in. pot plants..... $4.50 $40.00 $385.00

OPACA HOWARD. A named berry-bearing form of American Holly. Small glossy leaves, with an abundance of dark red berries in clusters.
3 in. pot plants..... $5.00 $45.00

OPACA HUME No. 1. A vigorous grower, spreading in habit, with large, almost spineless leaves. Bears regularly and the fruit is red and of large size.
3 in. pot plants..... $5.00 $45.00

OPACA HUME No. 2. Another cross between Dahoon and Opaca. A stronger grower than East Palatka. Its berries are not so bright, however.

TAXUS (Yew)

It is only in the past few years that nurserymen in the United States have begun to really appreciate and grow the Yew. In England there are Yews more than a hundred years old, but unfortunately the English Yew (Taxus baccata) is not reliably hardy in the north, and many do not realize that the Japanese, and many forms of Media, are perfectly hardy in and around Boston, and the Japanese even in northern New England.

They are not so particular as to character of soil except that it should not be too wet, but they do appreciate plenty of good plant food. They are immune to many insect pests and plant diseases so destructive to many other evergreens.

The Yew in its many species and forms can well be used in most all places where any other evergreen will do well.

We honestly believe you will do well to plant and grow on some of these Yews.

MORE HATFIELD YEWS

The following varieties were grown from stock purchased from the late T. D. Hatfield. He selected these as being the best of his unnamed varieties and we are still carrying them under his original numbers. We are giving brief descriptions.

	Each	10	100	1000
Media Hatfield No. 2. Real dark foliage, upright grower; very dense; needles medium length. Very good.				
* 4 to 6 in. trans.		$2.25	$17.50	
12 to 15 in. B&B	$2.25	21.50		
15 to 18 in. B&B	2.75	26.50		
24 to 30 in. B&B	4.25	41.50		
Hatfield No. 6. Somewhat like No. 8 in growth but twigs are not as heavy; leaves narrow. Very graceful.				
* 4 to 6 in. trans.		$2.25	$17.50	
* 8 to 10 in. trans.		3.25	27.50	
12 to 15 in. B&B	$2.25	21.50	200.00	
Hatfield No. 7. Bright glossy green, heavy foliage; long needles. A low growing spreading type.				
* 4 to 6 in. trans.		$2.25	$17.50	$165.00
* 6 to 8 in. trans.		2.75	22.50	215.00

15 to 18 in. B&B	2.75	26.50	250.00	
24 to 30 in. B&B	4.25	41.50		
Hatfield No. 8. Slow growing; very compact. Foliage bright green. Resembling Cuspidata Nana.				
* 4 to 6 in. trans.		$2.25	$17.50	
*10 to 12 in. trans.		4.00	35.00	
12 to 15 in. B&B	$2.25	21.50	200.00	
Hatfield No. 18. Similar in growth to **Taxus cuspidata.** Foliage a shade lighter making it wonderfully attractive. Probably the most rapid grower of all the low types of Taxus. However, it can be kept compact with a little shearing. If you want a good, quick grower, yet one having the good qualities of Cuspidata, we recommend this one.				
* 4 to 6 in. trans.		$2.25	$17.50	$165.00

You Should Grow

The Rare Franklinia

A Very Unusual Flowering Tree

Each twig develops at its tip a cluster of buds of graduated size, like overgrown greenish pearls. Early in August the largest of these attain the size of marbles. Then the guard petal folds back, still retaining its firm spherical form. From this shelter emerge four other petals, satiny, snowy white, elaborately frilled and pleated. The snowy, frilly chalice, three inches in diameter, holds a sumptuous mass of orange-gold stamens and breathes forth a delicate, balmy fragrance.

Each flower lasts two or three days and then drops cleanly. **There is a constant succession of bloom till hard frost.** We frequently get the unusual effect of a tree clad in crimson, autumn foliage and abundantly starred with white flowers.

The Franklinia begins blooming when not more than 3 or 4 feet high. Young trees under favorable conditions increase in height a foot or more each season. Specimens 30 feet high are known. It develops naturally with several trunks, but may easily be trained to a single trunk by removing the sprouts which start from the base.

Franklinia prefers full sun, has proved entirely hardy about New York and hardy in favorable locations about Boston, Mass. and in Ohio.

Azaleas

We have prepared a booklet describing more fully the Azaleas, Camellias and Rhododendrons listed herein. You will note we are only giving a one-line description in this price list. This is done to save space. We will be glad to send you the booklet above referred to if you will tell us you want it. No charge for it.

Azaleas have been one of our specialties for many years. This season we are pleased to offer the largest stock we have ever grown, and at reduced prices, too. If you have not been getting your Azaleas—Lining-Out or Specimen—from us, we wish you would try ours this season. We aim to please you with Azaleas as well as with our other stock.

KURUME AZALEAS

The Kurume Azaleas are one of the most showy of all flowers for the garden. They are also well adapted to forcing—thousands of them being sold for Easter, Mother's Day and Decoration Day. They are comparatively easy to grow and make such a wonderful display that the demand is constantly increasing. Many of the varieties are hardy out-of-doors as far north as Long Island. They are extremely floriferous, and in season, the blossoms completely cover the plants. The colors are almost every hue and shade except yellow, as you will find below.

CHUGAI HYBRID AZALEAS

A new group from the Chugai Nursery Co. near Osaka, Japan. These are late flowering. Flowers are usually variegated, white or pink ground with red, lilac or purple stripes, white base with colored margin, or purple with white variegation and edge. We do not recommend these for northern sections. They are hardy here. We have many more varieties of these in small lots. Slow growing.

GABLE'S HARDIER AZALEAS

Mr. Joseph B. Gable of Pennsylvania has spent almost a lifetime working with Azaleas and Rhododendrons. Many years ago he started breeding azaleas with the hopes of producing a hardier type of evergreen azalea in a good color range than then available. He has had wonderful success and is now recognized as the leader in this field.

You who have been getting our catalogs for the past fifteen years have seen how successful his efforts have been and there are many more of his later productions following as soon as sufficient stock can be produced.

We are very proud that Mr. Gable has furnished us with these new creations as soon as he had the stock to offer and we know from the reports we have received from our customers that his hopes have been more than realized.

As to hardiness: these varieties will average hardier than Hinodegiri and Amoena and much hardier than the other Kurumes. All have lived and flowered in the open field where they have withstood temperatures of twenty below zero and more in the past few winters with only negligible injury to a few. Most of them were uninjured.

KAEMPFERI HYBRID AZALEAS

In these new Kaempferi Hybrids—the result of crossing Kaempferi and Malvatica—there has been obtained the hardiest type of evergreen Azalea, with a good range of form and color in the flowers so far achieved. Several years' tests have demonstrated that these new Hybrids are just as hardy as Kaempferi, until now the hardiest of the evergreen sorts. In connection with these Hybrids we suggest you try out the new Gable varieties we are offering.

ARNOLDIANA AZALEAS

In 1914, the late Jackson Dawson, then superintendent of the Arnold Arboretum, at Boston, Mass., created a splendid new type of hardy Azalea by crossing Azalea Kaempferi and Azalea Amoena. Of the seedlings thus produced a considerable number of them were grown at Boston from their infancy until flowering age, when the following ones of unusual beauty and vigor of growth were selected.

These Arnoldiana Azaleas have done exceptionally well in Indianapolis, Indiana, and we can recommend them for trial in similiar soils and conditions.

BRIARCLIFF. Deep rich reddish pink.

VUYKIANA AZALEAS

A new race of very large flowered Japanese Azaleas, produced by crossing hardy Azalea Malvatica hybrids with Azalea Mollis. Sturdy growers, prolific bloomers. From the information we have they are much hardier than the Kurume Azaleas. Flowers range from 2 to 2½ inches. All bloom late midseason. Plants grow tall.

BELTSVILLE AZALEAS

Here is a group of Azaleas originated at the Plant Industry Station of the U. S. Department of Agriculture at Beltsville, Md. These are mostly good greenhouse flowering varieties as well as being hardy in colder sections. The descriptions of the named varieties are from descriptions furnished by the U. S. Dept. of Agriculture.

Price: 10 of a variety at 60c each, 25 or more of a variety at 50c each. All 3-yr. size.

CAROL (61). White. Hose-in-hose. Throat unmarked.
INNOCENCE (17). White. Hose-in-hose. Slightly wavy.

Woven Lath Shading

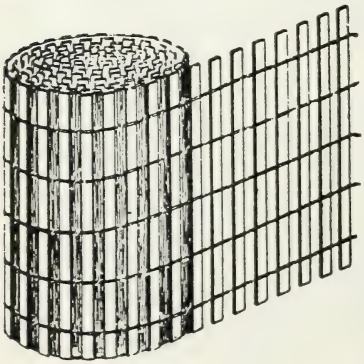
Our woven lath shading is an efficient and economical material for the protection of newly set rooted cuttings, seed beds and small seedling transplants. It protects them from the hot rays of the sun and strong and destructive winds.

The construction of the beds is simple. You can use narrow boards (4 inch) nailed on small stakes (2 x 2 inches or 1 x 4 inches), or you can do as we do. We stretch two wires three feet apart over a four foot bed (this will leave the lath shading extending over each wire six inches. This makes it easy to roll and unroll the shading without rolling off the wires. The wires are placed about 16 inches from the ground, thus giving the small plants plenty of room to grow before reaching the shading.

The laths or pickets are approximately ⅜ inch thick x 1½ inch wide and 4 ft. long and are woven with five double strand 12½ gauge galvanized wire, spaced about the right width apart to give proper shading. Painted with a solution of red mineral oxide which greatly extends the life of the shading.

It is also useful for making fences, to protect new plantings of grass and shrubbery around parks and fields and many other uses you may find for it. Can be easily rolled up again at any time and stored in a small space for future use. Comes in 50 and 100 foot rolls.

A little investment in proper protection of tender and newly planted plants may save you many tedious hours of labor, considerable expense and may even save you an entire season's growth of your valuable plants.



Why take chances of sun ruining your plants? You can get over 3,000 plants under 100 feet roll when planted 4 in. apart each way.

Another big advantage of using this Woven Lath Shading is that you can water your plants even while the sun is shining hot on them. This means a lot in continued dry weather. Price: Up to 500 ft. at 23 cents per running foot, over 500 feet at 22 cents per running foot. Large quantities specially priced.

GLENN DALE AZALEAS

The Division of Plant Exploration and Introduction at the Glenn Dale Plant Station began introducing, in 1941, a group of selected seedlings from their own crosses. We have been growing and propagating these plants since then and we are now offering them to the trade.

The purpose of this breeding work was to obtain a class of winter-hardy Azaleas that would have as large and varied flowers as those of the "Indian Azaleas" which are not hardy in this section. Mr. B. Y. Morrison, who has been leading in this work, has done a wonderful job, not only in producing large size and varied colors but also has bred the hardiness into the plants. These plants are most interesting. The flowers run to over 5-inches across and include both self-colored and variegated. The plants are mostly excellent growers and do well here, and from all appearances will grow well in much colder sections.

When I was told they had some blooms that would run over 5-inches across I could hardly believe it but, it is so. I have seen them, and I hope to offer some of the plants in another season or two. We only have a small quantity of some varieties, but hope to get all varieties distributed in as large an area as possible so we may have information as to how they grow generally throughout the country. If you get some of these we will appreciate knowing how they grow with you. We suggest you give these a trial.

The following descriptions were furnished us by Mr. Morrison and are based upon the original material as grown at Glenn Dale, Maryland, and give as figures for heights those of the original plants, all between 15 and 20 years old, under normal development except for the removal of propagating wood during a two season period.

The number following variety name is the Glenn Dale Station number.

Sometimes when Azalea flowers are described as striped or flaked on white they will appear as a solid color. When this occurs the branch should be cut out. This seems inherent with the variety—not any fault of the nurseryman.

Blooming dates are for vicinity of Washington, D. C. in a normal season.

BOOK OF TREES. Hottes. $4.00.
Propagating, transplanting, growing and pruning thoroughly treated in this 448 page book. Invaluable to every nurseryman.

LANDSCAPING THE HOME GROUNDS. Ramsey. $3.50.
Step-by-step, with photographs and plans to illustrate each point, this book shows just how to develop your home grounds for greatest beauty. Beginning with the development of a plan, the author gives concrete suggestions for landscaping the front lawn, creating a private "outdoor living room" in the rear, providing a useful service area, planting special purpose gardens, and constructing walks, driveways, pools, terraces and other features.

NEW DESIGNS OF SMALL PROPERTIES. M. E. Bottomley. $4.00.
There are dozens of exciting plot designs to inspire the home owner in this stimulating idea-book on landscape design. Each type of design—formal, informal, modern, and gardenesque—is treated separately and illustrated with typical layout plans.

THE NURSERY MANUAL. Bailey, $5.50.
Indispensable to everyone who propagates plants! This manual contains an alphabetical list of plants with full directions under each, telling how to propagate by seed, layering, cutting, budding, or grafting. Dr. Bailey includes an invaluable description of the main insects and diseases and their control. 240 illus.; 465 pages.

HORTUS II. (Bailey) $10.00.
Easy to use, accurate, and non-technical, this great book comes closer than any other single volume to answering all your garden questions. It contains complete information on every kind of ornamental, fruit and vegetable plant grown today. 778 pages.

MANUAL OF CULTIVATED TREES AND SHRUBS Alfred Rehder. $12.50.
This standard reference will be welcomed by all who are interested in the cultivated trees and shrubs hardy in North America. It presents a systematic and descriptive enumeration of 2,550 species and their many varieties. Identification is facilitated by analytical keys. An exact description of each tree is given together with brief notes on its economic and ornamental properties. A glossary, complete index of author's names and a map showing zones of hardiness are also included. Map; 996 pages; 5⅞ x 8¾ inches.

HOLLIES. H. Harold Hume. $6.75.
Nurserymen and gardeners (amateur and professional) all have been waiting eagerly for a book of this sort. This is the most complete book on Hollies ever published.
In this book is the help and information as to varieties, propagation, planting, culture and orcharding of Hollies.
The many varieties of American, English, Chinese and Japanese are fully described and discussed. Many black and color illustrations. Price $6.75.
